Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 22, 2009 has been entered.

Applicants' arguments have been fully considered and are deemed to be persuasive to overcome some of the rejections previously applied. Rejections and/or objections not reiterated from previous Office actions are hereby withdrawn.

Claims 1-2, 4, 11, 13-16, 19-24 are canceled. Claims 3, 5-10, 12, 17-18 are currently under examination.

Priority: The request for priority to NEW ZEALAND 521955, filed October 4, 2002, is acknowledged.

Objections and Rejections

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3, 5-10, 12, 17-18 are rejected under 35 U.S.C. 102(c) as being anticipated by McLachlan (US 20020166129; previously cited).

The applied reference has 1 common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

McLachlan teaches a method of treating coronary heart disease in a human which comprises that the human ingests a milk having greater than 95% by weight of β -casein A² (p. 11 claim 1-6; claim 3, 5-10, 17). The milk is obtained from bovines (p. 11 claim 2; claim 12). McLachlan further teaches that the milk comprises approximately 100% by weight of β -casein A² (p. 11 claim 7; claim 3). The milk composition comprising β -casein A² can also contain additional supplements or be in the form of a powder (p. 4 [0089-0091]; claims 7-8, 18).

On page 3 [0066], McLachlan teach that coronary heart disease means any disease relating to the coronary heart system and includes atherosclerosis.

In their remarks, Applicants assert that McLachlan does not teach or suggest in any way the treatment of hypercholesterolemia, hyperlipidemia, or atherosclerosis. Applicant's arguments have been fully considered but they are not persuasive.

As also noted in the advisory action of December 4, 2009, McLachlan teaches coronary heart disease means any disease or disorder relating to the coronary heart system and includes atherosclerosis (p. 3 [0066]). Therefore, the instant claims remain rejected under 102(e) as being anticipated by McLachlan.

No claim is allowed.
